

for your patients

Upgrade your hospital's staff experience

lincor.com

0333 042 8114

As one of the originators of in-room patient engagement services, our experience underpins the long-held belief that engaged, entertained, informed, and socially connected patients recover more quickly.

Our bedside technology helps fight feelings of boredom and helplessness, it educates patients about their condition, and connects them with loved ones and hospital services.

- *Improved Wellbeing*
- *Faster Recovery*
- *Fewer Readmissions*

for your hospital

Upgrade your hospital's patient experience

lincor.com

0333 042 8114

Lincor's suite of patient engagement tools aren't just for patients to use, there's a view for clinical and nursing team access, designed to improve care and outcomes. My CareBoard also supports your staff by reducing admin, allowing them to focus on care - the reason they joined the profession!

My CareBoard Clinician Services

Monitoring of multiple patients can help prevent falls and enable staff to spot other critical events early

Digital whiteboards can reduce clinical errors caused by poor handwriting & accidental erasure, and support better decision making

Real-time video consultations can reassure patients that have questions or want to relay information quickly

Data aggregation and workflow automation reduce nurse's admin and overall workload

Support Your Hospital's Primary Goals

Improve patient outcomes & reduce readmissions

Meet patients expectations of a modern hospital

Support nurses to improve morale & staff retention

The Lincor difference delivered your way

- No upfront costs
- Only pay for what you need
- Wide range of deployment options
- Delivery and training packages available
- Compliant with UK healthcare regulations

...and you could have a modern Lincor system for less than the maintenance bill of your current system!

Various deployment options
